

## ELECTRIC LIGHT PLANT IS AGAIN IN LIMELIGHT

### New Boiler and Large Generator must be Provided to Carry Winter Load; Alter- ations in Building Necessary to Instal.

Minutes of a regular meeting of the Wainwright Town Council held in the Council Chamber on September 14th.

Members present: Mayor Lally, Councilors Wiley, Yeager, Fish, Davidson, Montgomery, and Huntingford.

Minutes of the last regular and special meetings were read and on motion adopted.

Communication from Mr. M. G. Cardell re claim of Mrs. Redwell relative to compensation for injuries received through an alleged defective sidewalk.

Fish-Davidson—That the claim of Mrs. Redwell be referred to our Solicitor, before this Council commits itself as to settlement on any terms.—Carried.

The Committee on Fire, Water and Light reported that we find that in order to handle the load of Electric energy required during the coming winter, it will be necessary to install a second boiler and a larger generator, also to bore a new well, and make the necessary changes in the building, coal bin to conform. We estimate that this will entail an expenditure of approximately \$45,000.

It will be necessary also to raise the rate of energy supplied to the G. T. P. Railway to 17c per kw.

We strongly recommend that these changes be made.

Yeager-Wiley—That the report of F. W. & L. committee be accepted and the installation of another boiler and a large generator of approved style be purchased. Also changes in coal bin to conform.

Further that the rate of energy supplied to G. T. P. Railway be raised, and the Company notified accordingly to take effect October 1st 1922. The foregoing expense to be referred to the Finance Committee for ratification.—Carried.

The Committee on Health Parks and Cemetery reported that the work of grading and under-draining the drives in the cemetery has been completed, at a cost of \$132.00 for which the W. I. are to go fifty-fifty with the town.

Montgomery-Davison—That the report of the Health, Parks and Cemetery committee be accepted.—Carried.

The Committee on Finance reported having examined accounts amounting to some \$11,000.00 and recommended payment of the same.

Huntingford-Yeager—That the report of Finance Committee be adopted and cheques issued covering the several accounts.—Carried.

Davison-Fish—That the Utility manager be instructed to get quotation on the plastering and repairing of the roof of the Town Hall, to be submitted to the property Committee and this work be proceeded with at once.—Carried.

Fish-Davison—That Utility Superintendent be instructed to do necessary work to protect cemetery survey, by putting in at least permanent corner posts on each corner of each block.

Also that Secretary advise Mr. McLeod that selections of lots must be done through secretary of town and report made after each burial.—Carried.

Yeager-Wiley—That the Wainwright Studio be re-inbursed in the amount necessary to clear their account with the Utility as they are moving away. The amount approximately \$170.00.—Motion Lost.

Fish-Wiley—That the Wainwright Studio be paid monthly payments equivalent to amount of energy consumed by their successors each month until total amount due be paid in full.—Motion Lost.

After completing final arrangements for the Co-Generals visit the Council then adjourned.

After a stay of no less than two and a half years on the farm without coming to town, Mr. H. Home has now moved into town for the winter months at least.

Don't miss the dance tonight at the Elite theatre.

## LOCAL NOTES

Mrs. Julius Springer and family have left for Ottawa to spend a vacation with relatives there.

We learn that Mr. J. Telford has this week sold his car to Mr. T. Lissimore and from now on 'Doc' will drive a new Chevrolet Special.

Mrs. Murray Pawling has returned to her home in the city after a short visit with relatives in town.

## TIME FOR REDEMPTING LANDS IS ACCERTED

Extension in the time for redeeming lands sold in the 1921 tax sale has been extended by the provincial department of municipal affairs by order-in-council to October 31, 1923. This extension of time for redemption applies to all parcels of land other than unimproved land within the meaning of the tax sale relief acts, which were sold for taxes the meaning of the tax sale relief act, which were sold for taxes in 1921.

## LOCAL NOTES

Miss J. Fieldhouse, who is teaching at the Passchendale school was spending a few days on a visit to her parents in town.

Dr. H. H. Lockwood, dentist, wishes to inform his clientele that he will not be in attendance at his office until further notice.

A grinch is just as contagious as measles and a lot more disagreeable to the neighbors. Bussing another man's job is easy; it is doing work that's hard.

## PROV. MATRON O.E.S. PAYS OFFICIAL VISIT

On Friday last the Connaught chapter O.E.S. was honored by an official visitation from the Provincial Worthy Grand Matron of the order Mrs. Alice Darlow, of Alex.

After special and routine business has been completed a very pleasant social time was spent over the tea-cups.

During her stay in town Mrs. Darlow was a guest at the home of Mrs. J. H. Dawson, the worthy matron of the local chapter, and left for Vermilion on Monday's train. Auto drives and teas were arranged in her honor while here.

## GOVE. GENERAL SETS FIRE PREVENTION DAY

By royal proclamation, His Excellency, the Governor-General of Canada has designated October 9th as Fire Prevention Day. During the week preceding, lessons on fire prevention, subjects will be given in every public school, public meetings will be held in many of the large cities, towns and villages, and the owners and occupants of property everywhere throughout Canada will be counselled to give special attention to removal of fire hazards from their premises. Fire waste is one of the most serious economic problems confronting Canada at the present time.

## FIRST WHIST DRIVE BY LOCAL L.O.O.F. SEE SMALL ATTENDANCE

Owing possibly to the busy season, the opening whist drive given by the local Oddfellows on Wednesday last was only sparsely attended, although the gathering was an enjoyable one in the hands of a hard-worked committee.

At the close of play a delightful lunch was served in the well-known Oddfellows style.

The prize-winners were—  
Ladies: Mrs. A. Sawers, silver salad fork; 1. Mrs. J. Wilkins, card case; 2. Mrs. Davidson, bread tray.

Gents: J. Cox, gold scarf pin; 1. H. Smart, stick pin; 2. G. Long, shaving machine (child's size); 3. first place and Mr. Cox won the cent. of the cards.

## HARVEST FESTIVAL BY OUR LOCAL S.A. OCTOBER 7-8-9-10

The Salvation Army local corps are arranging to hold the annual harvest festival and thanksgiving on October 7, 8, 9 and 10. This has been an event in the Salvation Army for many years, and its celebration is calculated to instill in all hearts the spirit of real hearty thankfulness to the Giver of all good gifts, and the reason for gratitude to God for His tender mercies throughout the past year.

The money raised by the Harvest Festival offered is used for the training of Officers, supplementing the salaries of Officers in poor corps, and for repairs to various Corps properties unable otherwise to meet their obligations, being placed at the disposal of the local Corps. Friends will therefore be assured that they are assisting the good work in the neighborhood very materially by contributions they may make.

Accused by his partner, with no chance to vindicate himself, this man was forced to go to extremes and fight his way back to civilization and society. Just as he was on the home guard stretch an accident occurred that blasted his hopes. He was condemned to die; but a brave woman who knew his secret saved him in a most unusual manner. William Duncan and Edith Johnson in "No Defense" will explain this at the Elite theatre on Friday and Saturday.

## SECOND ANNUAL SCHOOL FAIR PROVES TO BE VERY SUCCESSFUL

The adage "competition is the spice of life" was never more truly evinced than on Wednesday last, when the second annual school fair for the Wainwright inspectorate was held in the rink.

The building looked averitable fairy bower, one half of the big enclosure being literally filled with exhibits of all kinds, while the rest of the available space was used as the sports ground for the racing events.

During the period of the Judge's work, the various competitions were run off, and keen rivalry marked all the contests.

Nothing but compliment can be paid for the system and arrangement of the whole affair and Principal Suckling and his assistants must feel well repaid for the large amount of work which the occasion entailed, the only jarring note being amount of time taken by the judges on account of the many exhibits and the closeness of competition in many exhibits, this causing an awkward wait before these could be thrown open to the large crowd in waiting.

In commencing on the fair as a whole, the judges remarked that it was the biggest school fair of the year in the district, and it seemed hard to believe that such vegetables could be grown in a dry year such as this has been. It grain also proved to be the best exhibited in any section, visited by the provincial judges. The following were the prize winners:

## GARDEN PRODUCTS

Potatoes—Oliver Alexander, 1; Robert Alexander, 2.

Flowers—Margaret McQuaker, 1; Mary Ebbert, 2; Carrots—Gertrude Ebbert, 1; Robert Alexander, 2; Jack McQuaker, 3.

Drop Cookies—Norris Gordon, Wainwright A, 1; Margaret Suckling, Wainwright C, 2; Crystal Aykroyd, Wainwright B, 3; Margaret McQuaker, 4; Vera Stuart, 5.

## LORD BYNG OF VIMY, GOV.-GEN. OF CANADA VISITS BUFF. PARK

### Welcomed by Citizenry, Returned Men and Massed School Children; Spends Pleasant Time in Buffalo Park.

The town was in fête on Saturday last the occasion being the visit of His Excellency Lord Byng, governor general of Canada, and Lady Byng, who are on a tour of the Dominion.

Promptly at 10 a.m. the special train pulled in and at that time the Mayor and Council, the returned men, the school children and a large number of citizens were on hand to give him welcome.

As the distinguished soldier, who it will be remembered was in charge of the Canadian forces during the great war, stepped from his private coach he was greeted by Mayor Lally, following which the party were led to the center of the beautiful railway lawn where the school children in their formation opened the proceedings with the singing of "O Canada" in which all joined heartily.

The Mayor then officially welcomed the party by reading the following address:

"To General, His Excellency, Julian Hedworth George, Baron Byng of Vimy, Knight Grand Cross of the Most Honourable Order of the Bath, Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, Member of the Royal Victorian Order, Governor-General, and Commander in Chief of the Dominion of Canada.

"May it please Your Excellency:

"On this, the occasion of the visit of your Excellency to Canada's National Buffalo Park, near which the Town of Wainwright is fortunate in being so situated that she also shares the honor of the event, in the capable hands of Mayor, it affords the unwelcome pleasure on behalf of our citizens to extend to you and Lady Byng a most hearty welcome upon this, your first visit to Western Canada, which I trust will tend to bring about in your government, in the same measure of success in the unfolding of the Empire as was exhibited under your able and gallant leadership on the field of Vimy Ridge during the progress of the great war.

"I trust that your visit, though of short duration, will leave so favorable an impression in your mind's eye that in future reflections you may have at least a passing thought of this occasion. I should time allow after your inspection of the park, it would afford us immeasurable pleasure to have an opportunity of bringing you into touch with the surrounding farming district, of which we are justly proud.

"Trusting that, through Divine Providence, health and happiness may attend Your Excellency and Lady Byng throughout your lives and that this visit will be not only one of pleasure but a means of retaining loyalty to His Most Gracious Majesty the King, and further strengthening the fealty of all his subjects, of whom we are proud to form an integral part."

"C. T. LALLY, Mayor."

"September 16th, 1922." This address was engraved on yellow parchment, and fastened with gold fasteners, on a most beautiful buffalo hide which had been procured from the government for the purpose.

In reply to the welcoming address Lord Byng said:

"Mr Mayor, ladies and gentlemen: I am very glad to be here."

"As representative of His Majesty the King it gives me great pleasure to be with you today. The warmth of your welcome to itself is a sign of the loyalty of your citizens to him and to the Empire of which he is the head. It is characteristic of British that as this Empire develops there is no further formulation of the constitution, because like our real emotions, the more permanent and essential they are to us the less do we express them in words."

"It is action that is the keynote of our time, and Canada in the war proved herself true to this tradition in a manner beyond even her own expectations. Those visit with friends in Edmonton."

Another fine buffalo is being shipped to England from the park this week. Davy Davidson will accompany the animal as far as Montreal where an attendant from the Old Country will then take "Mr Buff" in charge.

Mrs. W. Huntingford returned home on Monday after a short visit with friends in Edmonton.

## TREE-PLANTING.

## POLICY

The Department of the Interior makes the announcement that more trees have been planted in Canada in 1922 than in any previous year in the history of the Dominion. That announcement is decidedly welcome. It means that the people of Canada are becoming seized of the value of trees, that those sections, like Western Canada, where trees are scarce, are determined to secure the beauty and the advantages which trees bring, and that other parts of the country where trees are abundant are going in for replacement on a large scale.

One hundred and fifty thousand trees have been planted this year by the Dominion Forestry Branch in Ontario and in the Prairie Provinces. A number of counties in the East have adopted municipal tree planting to preserve the wood supply. Cities have taken up tree planting on a large scale and it is well to note that Calgary has been a leader in this respect.

The forests are one of Canada's greatest assets. There has been to general a tendency in the past to treat them as an indestructible asset. They are not indestructible as the experience of the United States proves.

Our forests are, however, different from most other natural resources, in that the value removed can be constantly replaced. Where formerly the life of a timber limit was estimated at, say, fifty years, the application of scientific methods of reforestation now extend this life indefinitely. Fortunately our governments are awake to that fact and from this time forward we shall see a tendency not only for the pulp and timber companies voluntarily to cultivate planting but for the governments to insist upon reforestation as a part of the contract by which companies secure timber areas.

Canada can look forward to being a source of timber for the world if it exercises greater care in the utilization of its forests. What that that will mean to this country may be estimated from the showing of the past year. In the twelve months ending June 30 exports of Canadian origin were valued at \$752,000,000. Lumber and wood pulp together accounted for one seventh of the whole, and paper made from wood-pulp for a little less than one-tenth.

## SELLING THE CROP

Because the wheat crop is likely to prove larger than even the most sanguine anticipated, and cash or future option prices may be a consequence sag considerably, farmers are by no means bound to rush their grain on to the market. There are always some who have to sell immediately, or at least think they have to. There will be enough grain from these to keep the railroads active. The farmer has nothing to do with the always-present need of ocean freight agents or brokers in the fall. That is none of his business, but it may account for some utterances in certain newspapers.

Grain will be at its cheapest, in all likelihood between now and the end of the year. The competition among the banks and the disposition of bankers will enable the farmer to satisfy immediate needs, as soon as he gets his elevator or storage certificates. As a matter of fact he will have no difficulty in meeting his obligations if he wants to, and of driving a good bargain for the sale of his grain at the same time.

It is generally speaking, well to have a friend in the local banker. Head office keeps him well informed and he is in the way of getting information likely to be valuable to the man with grain to sell. There need be no speculation on the part of the farmer. He generally knows his own business, and if timed over his regular fall payments may be trusted to market his products judiciously. But it is always necessary to be staunchly on guard at this time of the year when the parasites who live by pure, or impure, speculation are ready to move heaven and earth to get options to gamble with. There are honest dealers, lots of them with whom to deal, without taking any stock in the desperate plans of dealers of the other sort to secure a hold upon stored grain.

As usual much of the marketing of our grain in European countries will be done through British houses, and questions of exchange or national ability to pay need make us lose no sleep. Our grain will be needed abroad. A thought of the absence of Russian exports formerly a most important factor—should reassure us upon that point. India has little to sell and there will be little if any surplus of high grade wheat in the United States. There are no telling failures anywhere, but there are few countries with exported wheat surpluses of any great consequence.

Canadian wheat will in all probability net better prices later on than the quotations of options would indicate. The Asquithian policy of "Wait and See," is often a safe one to follow. Certainly it would be a mistake to crowd the markets just at present.

## TENTH FORTNIGHTLY CROP REPORT

Issued by Publicity Commission-  
er, Dept. of Agriculture,  
Edmonton.

The cutting of wheat has been finished in Alberta and threshing is under way in a number of districts but will not be general for about a week. Rye threshing is practically complete. This crop has not yielded quite as heavy as was anticipated at the time of cutting.

The weather since the last report was issued has been cool and showery with light frosts in some districts but not sufficiently heavy to damage the grain. The rain has considerably delayed the ripening of oats but has materially helped green feed and pas-

ture. The fall pastures are in such early will go into the winter in good shape.

A large number of trench silos have been constructed. The filling of these is now in progress in all parts of the province.

Flowers and corn will give heavy yields and will provide a large amount of winter feed. The second cutting of alfalfa in the irrigated districts is almost complete. An inspection of this crop by Departmental officials a few days ago revealed the fact that there will be a large amount of alfalfa available for shipment from the south to other parts of the province.

These are the days when the small boy wishes he had saved the nickels he spent at the picture shows so he could go to the movies.

TAKING A HOLIDAY TRIP

Then let us help you to solve it by suggesting

## "THE NATIONAL WAY"

TO

## PACIFIC COAST EASTERN CANADA

CANADIAN NATIONAL offers a diverse route to the Pacific Coast, going rail and steamships, returning all rail, or vice versa, thus giving passengers the advantage of delightful boat trip as well as travelling over entirely different territory in each direction. The Northern Canadian Rockies, traversed by the Canadian-National, afford the finest mountain scenery to be found on this Continent, and so vast that it is always new. To make your trip complete a few days should be spent at Jasper Park Lodge.

THERE is nothing that will contribute so much to the enjoyment of your trip or holiday as travelling Canadian National to Port Arthur or Duluth, thence steamers of the Northern Navigation. In connection with this summer trip east, there is the option of returning by a cool all-air route—the Canadian National route—a comfort given route and comfort given trains. East by boat, West by rail, or vice versa, or all in both directions.

## SPECIAL SUMMER FARES NOW IN EFFECT

Through Daily Transcontinental Service

Faster time - Short line - Best Roadbed - Excellent Service

THE "CONTINENTAL LIMITED" operates daily in either direction between Montreal and Toronto, Quebec, Wainwright and Pacific Coast. Standard and Tourist Sleeping and Dining cars, Colonial cars and coaches. The "NATIONAL" operates daily between Wainwright, Port Arthur and Toronto, carrying tourists and up to date equipment.

THERE IS A WIDE CHOICE OF ROUTING AND STOP OVER PRIVILEGES, ENABLING YOU TO COVER NEW GROUND IN BOTH DIRECTIONS.

Any Agent will assist you with your trip. Route fares, make reservations and look after all details.

### National Land Settlement

To all new countries immigration is a matter of vital national importance, just as emigration becomes a matter of individual and national necessity in older countries with teeming populations and a restricted land area.

For a century the United States was the mecca of the hard-pressed European emigrant, and the present population of more than one hundred million which the United States can boast is the direct result of the enormous influx of people to that new land. Within the comparatively brief period of four or five generations, the United States has grown from a sparsely settled pioneer country into one of the most populous, highly organized and wealthiest nations in the world. It no longer offers great inducements to the poor man and his family in Europe who are forced by stress of circumstances at home to seek a new land.

This fact was fairly generally recognized some years before the Great War and in the ten or fifteen years prior to the war the stream of European emigration was increasingly being diverted to the unsettled land areas of Canada. The population of Western Canada increased by leaps and bounds, millions of acres of homestead lands were taken up, great colonization companies actively assisted in directing tens of thousands of settlers to this country, villages grew into towns, and towns into cities almost overnight, production increased amazingly, thousands of miles of railway were built, and the whole industrial life of the Dominion largely developed and made prosperous.

The outbreak of the Great War put an abrupt and complete stop to all European emigration, while the exhaustion of free homestead lands and the final disposal of those large blocks of lands controlled by colonization companies operated to shut off immigration of agricultural settlers from the United States. Since 1914, therefore, Canadian immigration has been at low ebb, notwithstanding the great need of this Dominion in the matter of population to develop its great wealth of virgin natural resources.

Since the Armistice there has been a steadily growing opinion that Canada must wake up and endeavor to revive the stream of immigration which was bringing life and prosperity to the country from the United States. At the same time it was realized that after the war problems calling for solution made it imperative that such immigrants as were admitted to Canada must be of a type which would help the Dominion and not add to the problems with which the country was confronted.

The situation now is that the population of Great Britain is growing more rapidly than can be provided with means of livelihood there. Emigration on a large scale must take place. On the other hand, the vacant spaces of the world where white people can live and prosper are largely to be found in the British Dominions of Canada, Australia, New Zealand and South Africa. It is agreed that it is the part of Empire statecraft to scientifically direct the emigrating Englishman or Scotchman to the outlying parts of the Empire, thus keeping him under his own flag, and at the same time adding to the economic strength of the Motherland and the Dominions.

Therefore, the British Government has created what is known as the Overseas Settlement Board and placed at its disposal some hundreds of millions of dollars to assist settlement of people from the British Isles in the Overseas British Dominions. Each of the Dominions was invited to develop its own plan of immigration and land settlement and work in co-operation with the Overseas Settlement Board in London, to the end that the maximum number of sturdy British settlers may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

Some time ago Australia announced their scheme, and for some months past the stream of British emigration has been largely directed to that sister Dominion. In the meantime, and for some months past, the Dominion Government has been studying the whole problem of immigration in its relation to Canada's needs and its best interests. A special committee of the Federal cabinet has been in consultation with the several Provincial Governments, railways, and companies and individuals vitally interested in, and informed in regard to, the subject of immigration and land settlement.

The result of this intensive and expert study of the problem is found in the announcement made this month by Hon. Charles Stewart, Minister of Immigration and Colonization, of the Immigration policy of the Government, and to which immediate effect is to be given.

Inasmuch as the carrying out of a successful immigration and land settlement policy is of the utmost importance to every Canadian, and practically so to every resident of Western Canada, and furthermore as the assistance of every individual citizen is of prime importance in order to achieve the best results, some attention to the plan evolved will be given in a subsequent article.

### Prince Has Heavy Mail

Three Secretaries Attend to Letters Delivered to York House

The Prince of Wales normally receives about seven hundred letters a day, though there have been occasions when the contents of the mail delivered to York House in the day contained well over fifteen hundred letters.

A couple of weeks before the Prince started on his Indian tour, 2,000 letters

were delivered to his Royal Highness. The controller of the Prince's establishment, assisted by three secretaries, attends to the Prince's letters, the controller bringing under the Prince's notice communications which he thinks require the personal attention of his Royal Highness.—TIT-BITS.

### Healthy Cows Mean Good Milk

More Interest Being Taken By Farmers in Herd Testing

The News Letter of August 10th is issued by the Dominion Dairy and Cold Storage Branch states that, during the month of June 2,895 dairy herds were tested and that a total of 28,331 tests were made of individual cows. This was an increase of 17,018 tests over the number made in the month of May. An interesting part of the work is the attention given to cows owned by members of the boys' and girls' clubs. Farmers are showing more and more interest in herd testing and increased appreciation of a system which not only means healthy cows, but also healthy people, inasmuch as it guarantees to a large extent a supply of good milk. There is one way in which they can preventably assist in the excellent work which both the Dairy Branch and the Health of Animals Branch of the Dominion Department of Agriculture are trying to do, and that is by making cleanliness their watchword.

If a man ever wanted but little here below he got over it long ago.

Candles were used as clocks in the time of King Alfred.

### Forbidden Things

Many Things Seem to be Forbidden in Germany

In Germany, under the Republic things "forbidden" seem to be more numerous than ever, writes a correspondent. Indeed, a German newspaper suggests there ought to be a museum of "forbidden" things, and it gives a few curiosities. "It is forbidden to take your hat off" is one in a post office in Saxony. In a large meadow near Munich a notice states: "It is forbidden to exercise." Outside Germany, however, some curious "forbidden" are to be found. Once, in a fourth-class carriage in the wilds of Serbia, I came across this: "Travelers are forbidden to scratch the carriage windows with diamonds." And in five languages, too! And this is from a Greek hotel: "It is forbidden to sing in bedrooms and to bang the door when shutting it at night."

### Motorist Had To Pay

Magistrate Decides Toy Wagon As Important Legally As Auto.

A boy's toy wagon is just as important in the eyes of the law as an automobile. That is Magistrate Roberts' opinion and he put it into practice in a recent court ruling. Philadelphia. Samuel Stern's machine ran over and smashed little Richard Keating's wagon. Richard took down Stern's number on a board, went to the police station and had the motorist arrested. When the case was called the boy stepped up to plead his own case. Stern was amused and showed it, which was an unwise move, for the Magistrate saw nothing funny about it. Stern's amusement felt, however, when the Magistrate offered him his choice of being held for court or paying for the wagon. Stern paid.

Sores Flea Before It—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All ailments troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

### Mystery Is Solved

Chinese Laundry Ticket Is Nothing But a Number

The Chinese laundry ticket is a simple thing when one understands the system. According to the very polite boss of some sixteen younger and busier Chinese, a business man who has practically retired from heavy labor and now gets a little exercise on lady's waists and dresses which he likes to iron, the Oriental idiom which his iron in two is no description of the person who has left laundry or any other interesting thing. He says that in his establishment nothing but a number is written in Chinese.—New York Sun.

Corns are painful growths. Holloway's Corn Remover will remove them.

Germany's Printing Presses

People have been looking unnecessarily far afield for an explanation of the rapid slump of the German mark. This fall was due in part to the fact that notes to the value of 200,000,000 marks were printed in a single week, and in part to the fact that still more would be printed in the immediate future. Compared with these factors, the political factors are almost negligible.—London Sunday Pictorial.

### Cocaine Cultivated in Java

Cocaine first obtained recognition as a valuable medicinal drug about thirty-five years ago, and the commercial supply was derived from leaves of the wild coca plant native to Peru. Now, however, the shrub is cultivated on an extensive scale in Java, which will export this year about 4,500,000 pounds of the leaves.

Some day the world may learn with astonishment that the solution of its problems is contained in the writings of four obscure men—Matthew, Mark, Luke and John.

## SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn In Bed, Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a lump there. I could not turn myself in bed and could not sleep. I was this way for two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly and all the hard pains had left me and I was able to be up and to do my work. Now, however, the ship is outwitted and I feel splendid in all ways."—Mrs. G. RICHMOND, 4604 Ocean St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed. If you are suffering from pain, nervousness and all the ills that come of low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

W. N. U. 1438

### Shelter For Machinery

Your Farm Machinery Is Certainly Worth Protecting

An inexpensive shelter can be erected by using a few uprights with a roofing of lap lumber, rubberoid or even straw. In many places there are plenty of trees to supply uprights. The back and two ends can be finished in rough lumber or lacking this, in woven wire packed with straw. The shed should be deep and low enough to prevent drifting in through the entrance on the implements, and should front in a sheltered place or away from the prevailing drifts. A little reasonable paint on the woodwork and even on the metal of the machinery saves its value many times over, while a touch of oil or grease upon the knives and friction portions is like the stitches in time that saves the skin.

Keeping the machinery under cover undoubtedly prolongs its life. Moreover, during the busy season it is a saving of valuable time to find it in good running order, bolts and chain links in place, and sprockets and gears not needing those minor repairs that mean many times their value in critical moments saved.

## EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sticky worn out woman needs a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine cleans out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly, 25¢ at all dealers or The Cathartone Co., Montreal.

### No Traveller.

First Yoke!—They say that professional chap what lives out of the hill has written a book about Mrs. M.

Second ditto—Mrs. M. is, we know about Mrs. M. Why, to my knowledge he ain't been out of this town for five years.

### CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colds, etc., etc., can be quickly banished through the use of Baby's Own Tablets. They are mild but thorough purgatives which instantly regulate the bowels and sweeten the stomach. They are guaranteed to be harmless to infants and can be given to the youngest baby with perfect safety. Concerning them Mrs. W. L. Leptis, St. Louis, Mo., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels, gave her a good appetite and made her plump and well." The tablets are sold by medicine dealers or mail at 50¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In the island of Jersey it is unlawful for a married woman to start a bank account without obtaining her husband's permission in writing.

### The Prince's Serpent

The Prince of Wales, returning from his journey around the world, brought in his baggage divers and sometimes terrible things. The most awkward of the gifts offered to him was, without doubt, a magnificent serpent ten metres long. This serpent, to which the host had rendered some vigor, did not find the lodging given to him in the Zoological Garden of London quite to his taste, and refused to enter it. It took sixteen persons to compel him to move in.—New York Tribune.

Worms in children's work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety.

Feed child to and feed upon interior surfaces. Miller's Worm Powders will not only exterminate these worms of whatever variety, but will serve to repair the injury they have done.

### Device to Keep Ships From Rolling

Huge Gyroscope Stabilizer Steadies Liner Automatically

Thousands of people will be glad to know that travellers by sea may look forward to the day when sea sickness has become a thing of the past. The Hawkeye State, a passenger steamer running between Baltimore and Honolulu, is now being fitted with a huge gyroscope stabilizer, designed to prevent the rolling of ships. This apparatus, which weighs 120 tons and is said to be the largest of its kind ever built, is the first to be placed in a big passenger ship. It reaches a speed of 800 revolutions a minute, and is controlled by a series of small gyroscopes. These register the direction of the roll, and the big wheel is then automatically set in motion in the direction required to steady the ship.

### Freight by Air Too Expensive

The Trans Air Line has announced it is closing down its freight department between London and Paris, and confining its service entirely to passengers. It has found that the cost of freight is too high to attract a volume of traffic sufficient to make it pay.

The Best of Reasons "I never ask others to think as I do," remarked the broad-minded man, "because tomorrow I may think differently myself."

READ THE LABEL  
MAGIC BAKING POWDER

PRODUCT OF CANADA

### Passenger Men to Gather in West

Important Meeting of Passenger Agents in Canadian Pacific Rockies

One of the most important of the many conventions being held in Canada this year will be that of the American Association of Travelling Passenger Agents which will take place in the Canadian Pacific Rockies this month. American interest in this country has been growing by leaps and bounds since the war and this is being shown by the steadily increasing number of Americans who are visiting this country. In the Canadian Pacific Rockies and in the unequalled summer resorts of Ontario, Quebec and the Maritime Provinces are found endless attractions for visitors from the United States, and some of the conventions that have come across the line have been of tremendous importance in that they have enabled thousands of America's business leaders to become acquainted with this country and have thus greatly encouraged the development of trade mutually profitable to Canada and their native land.

The holding of the annual convention of the passenger agents in Canada this year is a matter of first-rate importance to this country, and particularly so to those places which will be visited during the tour of the country, that takes place in connection with the convention. These agents are all the time in touch with travellers, and they are in a position to direct much traffic along lines which they believe to be desirable. Thus it is important that they should be well acquainted with Canada, its larger cities, its points of scenic interest and the opportunities which the country affords.

The Association is made up of passenger representatives of railway and steamship lines on the North American continent and has as honorary members many passenger traffic managers and general passenger agents. At the convention held at Salt Lake City in September, 1921, an invitation was extended by the Canadian Pacific Railway for the Association to hold their 1922 convention along the lines of the Canadian Pacific. This invitation was enthusiastically and unanimously accepted and from the interest being shown by the members there is no doubt of a record breaking attendance this year.

### Halifax Films

"Halifax Films" has been organized to produce Canadian motion pictures from the works of Canadian writers. The Board of Directors includes the Minister of Public Works and Mines, President of the Board of Trade, Director of the Commercial Club, Ernest Jones and others. The first production will be "Frederick William Wallace's 'Viking Blood'."

Patronize your local merchants and thereby help to build up your home town and community.

Self-possession is at least eight or nine points of the law.

### Conditions For Livestock Marketing

Cattle Prices  
Compiled from United Grain Growers Ltd.  
for 12 Months  
Ending July 31st 1922

Instead of selling unfinished cattle in the latter half of the year, self-finished stock from January to June.

Such is the lesson of the course of prices at the Union Stock Yards, St. Boniface, as shown by the chart above. The upper line shows the prices of prime butcher steers from the first of August, 1921, to July 31st, 1922. The variations shown are typical of almost any year. The reason for this is that Western Canada markets a great number of immature and partly finished cattle every year. The movement of such cattle is heavy from July to December, and almost four-fifths of our western cattle are marketed in the latter part of the year. The heaviest shipments are in September, October and November, and in some years the number marketed in those months has been as high as 63 per cent of the total for a year. The result is that prices go down, and the fall market is extremely unsatisfactory for cattle producers.

On the other hand, only a limited number of our cattle are winter fed to be sold as finished animals in the period from January to June, and there is usually a good demand for such cattle during that period. The best winter fed cattle come on the market in May and June, and that is when prices are usually best. But even January the improvement in prices is usually to be noted. Winter feeding, therefore, even for only a short period may not only put cattle in a higher grade by improving their condition and finish, but will probably bring cattle to market at a much better time for selling.

The chart above is one of a number prepared by United Grain Growers to illustrate conditions of livestock marketing.

### German Sea Trade

Statistics of Port of Hamburg Show Great Revival

The extent of the revival in German sea trade is reflected in the statistics of the Port of Hamburg. In May of 1913, a banner year, 1,143 vessels, totalling 1,243,000 net registered tons, arrived at Hamburg. The arrivals of May, 1922, were 1,245 vessels, totalling 1,193,000 net registered tons. In May, 1913, the departures from the port showed 1,468 vessels, totalling 1,325,000 net registered tons. In May, 1922, 1,563 vessels, totalling 1,254,000 tons, departed.

### Debts and Claims

We do not want to make a virtue of generosity, but unless the cancellation of inter-Alleed debts is accompanied by a general settlement of international claims, our sacrifices will have been in vain.—Westminster Gazette.

## You May Have Kidney Trouble and Not Know It

If your back aches and you suffer from dragging pains, it is an evidence that your kidneys may not be acting just right. What you need is a course with Dr. Hamilton's Pills. They contain both Mandrake and Butternut and act very beneficially upon the liver and kidneys. "I was bothered with a great deal with my kidneys, but got quick relief from Dr. Hamilton's Pills. My trouble manifested itself in pain in the back and by constant headache. I quickly recovered after using a few boxes of Dr. Hamilton's Pills. They brought me health, strength and vigor." Sold everywhere, 25c, or The Calgary Dispensary Co., Montreal.

## The Fearless Lovers

—BY—  
ARTHUR APPLIN

Published by Special Arrangement  
with Ward, Lock & Co., Limited,  
London and Melbourne.

(Continued)

Lion went back to London; he would not let her there. He lived again now. Though action was good consciousness was painful. In London he did not find her. The housekeeper in Berkeley Square had not seen his grace for months, nor Lady Daphne, until one morning about a fortnight ago, when she had called to pack some clothes. As far as the housekeeper knew the duke was still in Scotland.

Without a moment's hesitation Lion took the night mail to Inverness; but when late next day he reached the castle he found the windows shuttered, the doors barred and bolted. The surly, uncommunicative Scotchman at the lodge gates informed him the family had left two days previously for London.

For a few terrible moments hope deserted him. He felt like a cockle-shell boat drifting on the ocean, without sails, without rudder. Then he became overwhelmed by a sense of the unreality of everything.

A walking blantly back from the castle to Inverness, he found himself on the banks of the river. He stood at the head of the pool where he had found Daphne fishing that day of the epaie. And he visualised all that had happened, living again in those few glorious moments when he rescued her from the river, carried her in his arms and heard her confession of love.

"But she never loved me," he cried. And the next moment: "I know she is faithful. It's a plot. They have taken her from me." And again: "She was frightened; she thought I was implicated in some dramatic brawl, and she ran away." Not knowing what to believe, he believed nothing. He began to doubt that he had ever run away with her married her, taken her to Paris.

He found himself back in his home at West Kirby, sitting in the living room waiting for his father. He did not quite know how he had got there, or why he had come. Some vague thought suggested that he might find a letter from his beloved, for she knew his address. But there was nothing.

When his father came in he looked at Edward closely before speaking, then held out his hand. "Well, son."

"Well, father?"

That was all they said for a while. Henry Lion lit his pipe. He told the servant to lay the evening meal.

"You stop the night," said Edward turned his face away. He felt that he had lost everything, not only his woman, but his life.

"Yes, if you don't mind. I'll be off to-morrow again." Henry Lion nodded. "You've got married then."

"Yes." He sat down heavily by the fire and gazed into the glowing peat, and after a little while told his father everything that had happened.

"Maybe," he said, "the duke or one of his people has written to you, father?"

The old man took a chair, and sitting beside his son, put his arms round his shoulders. "I've heard nothing. I'm sorry you've been hurt, my son; then that hurts you hurts me. But I know no good could come of it. Lap dogs and bull terriers never mated yet. You're feeling more now, so we'd best not talk. One day, maybe, you'll look back and be glad things have turned out as they've done. They have, don't they? Until the wound has healed. I'll not be asking anything of you, but you'll find that works a cure for trouble."

"Thank you, father," Edward replied. He took the rough, toll-free hand in his. "Thank you. But I've got to find her. I'll find her. Then he stood up, his head held high, his face clenched. "I do know. She loves me. She's heard, perhaps, she's different to most women, father."

"My son," the old man said. "I look at you, the old man said. He smiled. He too thought he knew. All men think they know—all women. But it is only a little child who sometimes remembers what it learnt when it lay, needle-like, buried beneath a woman's heart."

"I'm going to find her if I have to search the world." "The world's big, my boy. And travelling costs money." Edward laughed. "If I have to find my way through the world, I'll end to the other, I will, and I'll find her. He turned with sudden passion on his father on the next day. I'll bring her back here to you, and you'll put that chair up to the fire and you'll let her to stay as you asked me a while ago."

"Maybe, maybe," Henry Lion said. "And maybe I'll ask her to get out of my house. Do you hear, my son?" "I am sure of it, father."

CHAPTER XVII.

The Duke of Athelcar came to the conclusion that he had never really known his daughter. She had been little more to him than a companion, and only as much of a companion as a woman could be to a man of his temperament and principles. He had not perhaps altogether done his duty by her.

As a matter of fact, he began to find his conscience becoming exceedingly uncomfortable. Edward Lion had awakened in him the need to be a better father. It refused to go to sleep now.

The extraordinary thing was that Daphne gave him little or no trouble. She was patient, docile, obedient. He took walks with her in the park, and he was exceedingly fond of her, and he did not know how he felt. And there was nothing else to kill.

nothing. I'm sorry you've been hurt, my son; then that hurts you hurts me. But I know no good could come of it. Lap dogs and bull terriers never mated yet. CHAPTER XVII.

The Duke of Athelcar came to the conclusion that he had never really known his daughter. She had been little more to him than a companion, and only as much of a companion as a woman could be to a man of his temperament and principles. He had not perhaps altogether done his duty by her.

As a matter of fact, he began to find his conscience becoming exceedingly uncomfortable. Edward Lion had awakened in him the need to be a better father. It refused to go to sleep now.

The extraordinary thing was that Daphne gave him little or no trouble. She was patient, docile, obedient. He took walks with her in the park, and he was exceedingly fond of her, and he did not know how he felt. And there was nothing else to kill.

He waited impatiently for his sister to join them; they might then safely visit Nice or Monte Carlo until the yacht arrived. He wanted to avoid at all costs the faintest breath of scandal. So many people in his world had nothing to do but talk.

Daphne was happiest when he left her alone. She was content to sit all day in the verandah with a book, reading or dreaming. Athelcar wished he knew what she dreamed. He continually wanted to help her; he wanted her to forget.

Since leaving Paris Lion's name had never been mentioned. Athelcar comforted himself with the reflection that he had saved his daughter from a terrible messianism, but he knew they were not yet out of the wood.

So many people in his world had nothing to do but talk. Daphne was happiest when he left her alone. She was content to sit all day in the verandah with a book, reading or dreaming. Athelcar wished he knew what she dreamed. He continually wanted to help her; he wanted her to forget.

Since leaving Paris Lion's name had never been mentioned. Athelcar comforted himself with the reflection that he had saved his daughter from a terrible messianism, but he knew they were not yet out of the wood.

## THE SALMON

PEARL, who had changed Pimble, the End-of-the-Earth Brownie, into a sea creature, was ever so pleased at the interest he showed in him. "You seem to wish to have everything explained to you," she laughed, teasingly.

"I always want things explained," he answered seriously, "because there is nothing in the world I enjoy so much as learning about new things." Just at this instant a glorious gray fish swam past them. Each of its scales overlapped one another, and in the shining sun rays that pierced the water, this fish appeared more than beautiful.

"My goodness!" exclaimed Pimble, "what is that? It looks like some swimming Jew!" "Nothing more or less than a Salmon," laughed Pearl. "A Salmon that I must love to eat."

"Will you tell me more about it?" "Certainly," she answered. "Aside from the fact that its flesh is pink and very delicious (which is almost the only thing concerning a Salmon that interests humans), there is a lot concerning Salmon that is more than amusing. For instance, at three different points of the Salmon's life, it is absolutely different, both in appearance and habits from what it will be in its other stages."

"When Salmon first emerges from the eggs they are tiny helpless things and for the first weeks of life they are careful always to hide, they also carry with them part of the egg from which hatched, as it serves as food. At the end of about fifty days they begin to have a fish shape; but not before. During the first stage the young Salmon is called a Parr. During their parroted they remain in fresh river waters and only venture to sea when they have become 'Smolts'." (A smolt is a young Salmon during its second stage of development). For two months the Smolt stays in the ocean, during which time it grows most amazingly. These two months over, it returns to its native river and is now called a 'Grilse'.

"Why does it go back to the river?" asked Pimble, who was hugely interested. "To lay eggs," Pearl answered. "There is nothing strange in that; but," she added, "it does seem more than strange, that the Grilse who has the entire ocean as its home, never loses itself too much to remember how to find its native river. It is as though a wearily powerful memory or instinct dragged it back to the spot of its birth."

"Just what is 'instinct'?" Pimble and Pimble's eyes were wide with thought. "Can you tell me?" "As far as I know," said Pearl, "it is a power which enables all, each and every one of us to feel what it is, it is an extremely difficult thing to explain. The Mermaid swam alongside of Pimble and answered, "There is something in it. I suppose," she then began, "the only way to speak of instinct is to call it a God-given knowledge that is bestowed on all living creatures for their own good. It is a knowledge that God has whispered to their little souls of how He wants them to live their lives. We have to call this undeniable fact something else. We call it 'instinct.' That is all. It is all that guides a Salmon from the whole immense tract of ocean water back to its very own river."

"To lay eggs," Pearl answered. "There is nothing strange in that; but," she added, "it does seem more than strange, that the Grilse who has the entire ocean as its home, never loses itself too much to remember how to find its native river. It is as though a wearily powerful memory or instinct dragged it back to the spot of its birth."

## Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

## Children Cry For Fletcher's CASTORIA

### Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; labors always for the betterment of mankind. This information is at the hand of all physicians. He is with you at the moment call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student in his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the slightest babe, and that it is a good thing to keep in the house. He knows.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

### No Child Today Is Really Bad

Wild Youngsters of Today Will Be Respectable Fathers and Mothers Of Tomorrow

Youth will have its fling, and some 2,000 years ago a wise old Roman, Cicerone, remarked that "rashness attends youth as prudence does age, and this, we are told, is about as far as just criticism can go against the youth of today. No child, it is said, is really bad, and the "wild young people of today" against whom so much stern criticism has been directed in recent months are all right at heart and no worse than their parents were a generation ago. It is no new topic, the talk of the folly of youth, says St. Louis newspaper, remarking that "the world has been wild and youth could not help but take on the aspects and the manner of wildness. It is a symptom, not a disease. And it is passing. It is worked a moral degeneration of youth? It has not. The average youth of today; girl or boy, is sound. The flamboyance of the day are superficial. They have touched the surface of youth with garish pigments, but they have not marred its soul. For somehow, the soul of youth is commonly steered safely through the perils that beset it. Much that we think is corrupt somehow does not corrupt. The world is filled with men and women, staid and respectable, who were wild things in their youth; and by far the greater part of the "wild young people of today will be the respectable fathers and mothers of to-morrow."

British Rule In India

Hard to Disprove Charges Made By Revolutionary Anarchists

Those who have been in India and who know best how to judge of the effects of British rule there have no difficulty whatever in answering those writers who embrace every opportunity to attack the policies which it has been found wise and prudent to adopt. They are able to trace in much that has been written and said the line of argument adopted by those whom they regard as revolutionary anarchists, native or otherwise, who seek to show that the British have been a curse instead of a blessing to India, and that they have kept Indians ignorant and oppressed, and that they have reduced them to poverty and robbed them. Entirely contrary to the fact as it exists, undoubtedly in it is not altogether easy to disprove, since it covers such an enormous field, and depends largely upon suppositional statements as to what India's condition was when the British went there, and what it might be if the British were driven away.—Christian Science Monitor.

Poland's Wheat Crop

Expected to Total Over Forty-Four Million Bushels

Although the Polish mark has a nominal value of almost 24 cents, it is extremely difficult to find its value in terms of money. Further paper issues and governmental uncertainty did not help matters. However, the mark is used in the announcement made by the International Institute of Agriculture at Rome, that the Polish wheat crop this year will total 44,300,000 bushels, this being an increase of 25 per cent. over the 1921 figure. The Polish mark is a currency of a generous surplus for export, and this at a time when the North African crop, upon which France is largely dependent, is particularly bad.

If other Polish crops prove as abundant as its wheat, there is reason to believe that Poland will be able to retire much of its bad paper and thereby gain a foothold which may serve as the foundation of future prosperity. The textile mills and the mines are both busy, and Rumania is now the heavy buyer of Polish flax. Finland, too, is eager for foodstuffs, requiring 50,000 tons of rye and 25,000 tons of wheat annually. The country's resources, paper pulp and lumber, are ample, and through the export of these products has sufficient funds to supply its own needs.

It is interesting in this connection that the International Institute of Agriculture, which supplies accurate data and gives the world a solid basis upon which it may determine its supply and demand, came into existence through the foresight and activity of an American citizen, David Lubin, of California. Mr. Lubin was born in Poland, but came to America as a young man and became successful in the mercantile business. He realized the fact that an international clearing house of agricultural statistics would be valuable to every line of industry and interested King Victor Emmanuel of Italy in his plan. The institute was founded in 1905, and all of Mr. Lubin's expectations have been fulfilled.—St. Thomas Times-Journal.

The largest burning glass known, made in 1800, cost \$2,000.

### Canadian Cattle Prices in Britain

Cattle from Canada Command High Prices in British Market

While Irish bacon still retains its position in the British market, Irish cattle do not seem to be doing so well, probably owing to the disturbed state of the country. The Dominion Livestock Branch reported Irish bacon selling at from 159 shillings to 167 shillings the long hundredweight, Danish at from 148 to 155 shillings, Canadian at from 136 to 140 shillings and United States at from 115 to 120 shillings. On the other hand Canadian cattle commanded an high as 14c a pound live weight, and Irish at from 10½ to 12½. Prime Scotch ranged at from 16½ to 17½.

Regarding wool the Livestock Branch reports said the spring rise in price was being maintained and that a keen interest was being shown in western products.

Step the Cough.—Coughing is caused by irritation in the respiratory passages and in the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

### Farming Second Industry In B.C.

Production of the Forest Leads With a Good Margin

Agriculture, with a production of \$59,745,994, was the second industry in British Columbia, in 1921, according to a report issued by Hon. E. Barrow, Minister of Agriculture. Production shows a shrinkage of 13.39 per cent. in value from the preceding year, owing to decreased values.

Forest products, lead the province, with a value of \$64,970,000, while mineral production had a value of \$28,066,641 for the same period. The fruit crop for 1921 was the largest on record, its value to the producers being \$84,850,894, an increase of 15 per cent. over the value of the 1920 crop. In dairy products there was an increase of \$16,558 pounds of butter, while the production increased by 206,677 tons.

## Edgerton District School Fair, Is Successful

The third annual fair of this  
district, which is composed of  
eleven schools, was held under  
ideal conditions of Tuesday and  
Wednesday, at the fair grounds.  
Threshing interfered somewhat  
with the grown-up male attend-  
ance but the crowds that did at-  
tend plainly showed the interest  
being taken by those grown-ups  
in the work of the schools' pupils  
and very few stayed away that  
could possibly attend. Indeed, the  
schools might easily profit by the  
time thus spent in viewing the  
exhibits which were of a very  
high order all through. It was  
really remarkable to realize that  
this was all the work of juniors.  
For months these children have  
applied themselves diligently to  
the tasks on which they had set  
their minds in preparation for the  
fair; and now—the final test—  
would the judges give their en-  
tries a winning place? Of course  
they could not all win, but they  
all had tried. We doubt very  
much if such exhibits would not  
obtain good placing in senior  
competitions and one particularly  
fine landscape in water-colors  
drew exceptional comment from  
both the judges and public who  
viewed these fine works of art.  
Too much praise cannot be given  
to those teachers of the different  
schools who were so successfully  
in their exhibits. To them is due  
the moulding of the character of  
our future generation and we  
must admit that they are making  
a success. A very important item  
which bears on the success of the  
fair is the fine work of the sec-  
retary, Ronald Hullah, principal  
of Edgerton school although he  
modestly admits that if he did not  
have the help of the other teach-  
ers he could not do it. During the  
time the doors were closed while  
judging was in progress, a short  
programme of sports was run  
off which helped greatly to  
liven up proceedings.

Miss Scott, Messrs. Gandier,  
Howe and Elliott all of the School  
of Agriculture Vermilion, and Mr.  
Fuller, Inspector of Schools,  
Wainwright, officiated as judges  
and their task was no easy one.  
Owing to pressure on our  
space the list of winners is un-  
available held over till our next  
issue.

## To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

### CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders  
of these bonds who desire to continue their  
investment in Dominion of Canada securities the  
privilege of exchanging the maturing bonds for new  
bonds bearing 5 per cent interest, payable half yearly,  
of either of the following classes:

- (a) Five year bonds, dated 1st November,  
1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November,  
1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st  
December, 1922, the new bonds will commence to earn  
interest from 1st November, 1922, GIVING A BONUS  
OF A FULL MONTH'S INTEREST TO THOSE  
AVAILING THEMSELVES OF THE CONVERSION  
PRIVILEGE.

This offer is made to holders of the maturing bonds  
and is not open to other investors. The bonds to be  
issued under this proposal will be substantially of the  
same character as those which are maturing, except  
that the exemption from taxation does not apply to the  
new issue.

Holders of the maturing bonds who wish to avail  
themselves of this conversion privilege should take  
their bonds AS EARLY AS POSSIBLE, BUT NOT  
LATER THAN SEPTEMBER 30th, to a Branch of  
any Chartered Bank in Canada and receive in exchange  
an official receipt for the bonds surrendered, containing  
an undertaking to deliver the corresponding bonds of  
the new issue.

Holders of maturing fully registered bonds, interest  
payable by cheque from Ottawa, will receive their  
December 1st interest cheque as usual. Holders of  
coupon bonds will detach and retain the last unmaturing  
coupon before surrendering the bond itself for conversion  
purposes.

The surrendered bonds will be forwarded by banks to  
the Minister of Finance at Ottawa, where they will  
be exchanged for bonds of the new issue, in fully  
registered, or coupon registered or coupon bearer form  
carrying interest payable 1st May, and 1st November  
of each year of the duration of the loan, the first interest  
payment accruing and payable 1st May, 1923. Bonds  
of the new issue will be sent to the banks for  
delivery immediately after the receipt of the surrendered  
bonds.

The bonds of the maturing issue which are not  
converted under this proposal will be paid-off in cash on  
the 1st December, 1922.

W. S. FIELDING,  
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

## OPENING OF Schools of Agriculture Olds, Claresholm, Raymond, Vermilion.

### ACCOMMODATION

## Another PRICE Suggestion Maple Nut Cake and Chocolate Layer

THIS unusual, economi-  
cal Maple Nut Cake  
will keep fresh for several  
days, and the Chocolate  
Layer Cake, made in a lit-  
tle different way with Dr.  
Price's Cream Baking Powder,  
is a family favorite too.  
Try one or both of them  
today!

### MAPLE NUT CAKE

(All measurements for all  
materials are level.)  
1/2 cup shortening  
1/2 cup light brown sugar  
2 eggs  
1/2 cup milk  
1 1/2 cups flour  
1/2 teaspoon salt  
2 teaspoons Dr. Price's  
Baking Powder  
1 cup chopped nuts—preferably  
Brazil  
1 teaspoon vanilla extract

Cream shortening, add sugar slowly  
and yolk of egg and milk and  
beat well, sift flour, salt and bak-  
ing powder together and add  
chopped nuts; fold in beaten  
whites of eggs; add flavoring.  
Bake in well greased loaf pan in  
moderate oven 35 to 45 minutes.  
Cover top with maple icing and  
sprinkle with chopped nuts while  
still soft.

### MAPLE ICING

1/2 teaspoon butter  
2 tablespoons hot milk

**DR. PRICE'S  
CREAM  
Baking Powder**

Made from Cream of Tartar, derived  
from grapes. Gives the dough per-  
fectly, giving the food fine texture  
and rich flavor.

## Railway News

Montreal.—Promotions and changes  
have just been announced in the  
ranks of the Canadian Pacific Tele-  
graphs, effective May 1st, 1922.  
W. J. Camp, Assistant Manager  
of Telegraphs for Eastern Lines, is  
transferred to the retired list, and  
is one of the oldest employees of the  
Canadian Pacific Telegraphs, having  
joined the service thirty-six years  
ago, a few months before the open-  
ing of the Telegraphs at Montreal.  
He is a native of Montreal.  
W. D. Neil, Superintendent of the  
Ontario Division, is promoted to the  
position of Assistant Manager, Eastern  
Lines, succeeding W. J. Camp.  
Born in Ontario, Neil entered the  
service in 1905, as operator, and  
he has had experience at  
Calgary, Edmonton, Winnipeg, and  
other important points in the West.  
He was transferred from the West  
to the position of Traffic Super-  
intendent at Montreal in March,  
1915. In June, 1916, he became  
Traffic Superintendent of the Eastern  
Lines, with headquarters in Montreal.  
In December, 1918, he was  
transferred to the Ontario Divi-  
sion.

W. M. Thompson, at present Super-  
intendent of the Eastern Division,  
with headquarters at Montreal, is  
transferred to Toronto, suc-  
ceeding Mr. Neil. Mr. Thompson was  
born in England. He entered the  
Canadian Pacific Telegraphs in 1885  
as operator, and he has passed through  
the different positions gaining wide  
experience as chief operator. Later  
he was agent at Winnipeg, and he  
was transferred from Winnipeg to  
Montreal in 1915 to be chief operator in Mont-  
real. He was appointed Superin-  
tendent of Traffic in 1916 and pro-  
moted to the position of Superin-  
tendent of the Eastern Division,  
with headquarters in Montreal in 1918.

J. Mitchell succeeds Mr. Thomp-  
son as Superintendent of Tele-  
graphs, Eastern Lines, with head-  
quarters at Montreal. He entered  
the Canadian Pacific Telegraphs  
service in 1886 as operator, and has  
passed through different positions  
to Chief Operator in Montreal. Later  
he was made Inspector of Tele-  
graphs, and in 1918 he was appointed  
Superintendent of the Eastern Division,  
with headquarters in Montreal in 1918.

Montreal.—G. C. McKay is ap-  
pointed General Agent, Passenger  
Department for Canadian Pacific  
Rail and Ocean Traffic at Detroit,  
with office at 1280 Griswold Street.  
Mr. McKay entered the service of  
the Canadian Pacific Railway as  
ticket clerk in Detroit on June 1st,  
1906. Promotions following were:  
February, 1907, ticket agent, De-  
roit; October, 1911, City Passenger  
Agent, Chicago; May, 1912, City  
Travelling Agent, Chicago; July,  
1916, City Passenger Agent,  
Chicago; July, 1916, City Passenger  
Agent, Detroit; June, 1920, As-  
sistant General Agent, Chicago; No-  
vember, 1920, General Agent, Cana-  
dian Pacific Steamship, Detroit;  
April, 1921, General Agent, C.P.R.,  
Detroit. From the latter post he  
takes his new appointment as Rail  
and Ocean Traffic General Agent,  
Passenger Department, Detroit.

Montreal.—W. McIlroy is ap-  
pointed General Agent of the Canadian  
Pacific Railway with office at 608  
South Spring Street, Los Angeles,  
California. He joined the C.P.R.  
service on May 1st, 1894, as a tele-  
graph messenger at St. Thomas, On-  
tario. Promotions following were:  
June, 1897, clerk in the Passenger  
Department, Galt; July, 1898, tele-  
graph operator, Galt; July, 1899, agent  
at Detroit. Subsequently Mr. Mc-  
Ilroy was agent at St. Thomas, Galt  
and Sarnia. On October 14th,  
1912, he became city ticket and pas-  
senger agent at Hamilton. May  
1915, city passenger agent, Toronto;  
June, 1916, chief clerk, Toronto; June,  
1920, General Agent, Passenger De-  
partment, Detroit. From Detroit he  
goes to Los Angeles.

Winnipeg.—Beginning early in May  
the Canadian Pacific Railway oper-  
ates through the Province of Mani-  
toba, a stock improvement train un-  
der the direction of the Department  
of Agriculture of the province. This  
train is donated by the railway com-  
pany to the department in the in-  
terest of the advancement of live-  
stock raising, the company in ad-  
dition to the lecturers and others sent  
by the government for the purpose  
and consists of the following cars:  
in addition to ten freight cars of  
special type for handling live stock.  
Five special coaches for lecturers,  
a specially fitted moving picture car,  
a refrigerator car, will be used for  
dispensing dressed beef, bacon and  
other produce. This train is  
run as a special through the prov-  
ince.

Racers strip themselves that  
they may outstrip others.

## JUDICIAL SALE

## TOWN PROPERTY

Pursuant to the Judgment and final Order for Sale, there will be offered for sale by James William Stuart, auctioneer, at the premises hereinafter described in the Town of Wainwright, Alberta:

**SATURDAY the 30th day of SEPTEMBER 1922**, at the hour of 2:30 o'clock in the afternoon, the following lands and premises namely:

Lots 3 and 4 in Block 14 in the Town of Wainwright, Alberta as shown upon a map or plan thereof of record as Number 6445V, excepting thereout all mines and minerals and subject to the reservations expressed in the original grant from the Crown and in the existing certificate of title.

The Vendor is informed that the above premises are situated in the heart of the business district of the Town of Wainwright, an important Divisional Point on the Canadian National Railways, G. T. P. main line.

That there is a substantial building on the lots in which until recently there was carried on the business of a livery and sale stable.

The property will be sold subject to a reserve bid and to all outstanding taxes.

The terms of payment are ten per cent of amount of purchase money on day of sale and the balance within sixty days thereafter without interest.

In all other respects the standing conditions of sale of the Supreme Court of Alberta as approved by the Master in Chambers will govern.

Further particulars may be had from Messrs. Fieldhouse & Hunter, Wainwright, Alberta Solicitors for the Vendor.

W. MacLAREN  
Approved—H.C.T. C.S.C.

For further particulars, terms and conditions of sale, apply to Messrs. Griesbach, O'Connor & Co. Barristers, &c., Edmonton.

Approved—Edmonton  
A. T. Kinnaird, Alberta  
Dep. Registrar. 27-9c

## THE PERILOUS AGE OF GIRLS

Sixteen and Seventeen are the most perilous ages for girls, according to the report of the New York Probation and Protective Association, just made public. Low wages are shown to play a prominent part in bringing the girls under the care of the organization. Out of 356 girls who were working when they came under the supervision of the society, 233 received less than \$16 a week, fifty-seven received between \$12 and \$14, thirty-one between \$10 and \$12, twenty-four between \$8 and \$10, and nineteen received less than \$8.

However, twelve girls received over \$30 a week, and 111 received between \$16 and \$30. According to Miss Maude E. Miner, secretary of the association, other elements enter into the question of a girl's morality—her mentality, for example. Of 29 girls examined at the mental clinic of the association, 77 per cent. were below normal intelligence; 23 per cent. were mentally defective; 18 per cent. were of dull normal intelligence, and 13 per cent. were on the border line of intelligence. The remainder were affected with some sort of mental depression or disease.

That the ages of sixteen and seventeen are the most perilous for girls is based on the fact that 265 of the total number of girls examined are of these ages, although a total of 398, or 55 per cent., were under seventeen; 475 were single, 41 married, 15 separated from their husbands, 6 were widowed and 2 divorced.

Environment had much to do with their condition, 64 per cent. living in what were regarded as unfavorable conditions; 46 per cent. inherited abnormal traits according to examining physicians; the parents of 55 per cent. were foreignborn, although 79 per cent. of the girls themselves were born in the United States.

The influence of institutional life was quite marked, 180 of the girls having lived in homes of various kinds—eighty-nine in child-caring institutions, sixty-nine in reformatories, seven in custodial institutions, nine in maternity homes and six in hospitals for the insane.

Of the 539 girls examined 189 ran away from home, 106 were guilty of some sexual offence, eighty-six were brought to the association because of their mental and physical condition, thirty-seven because of incorrigibility, thirty-seven because of their waywardness, twenty-five because they were school "problems," eighteen for vagrancy and fifteen for larceny.

Their chief occupations were as follows: Thirty-six per cent. worked in factories, 20 per cent. were engaged in domestic service, 18 per cent. were engaged in clerical occupations, eight per cent. were in mercantile work, four per cent. were telephone operators and six per cent. attended school; five per cent. had no occupation.

## SHIPMENTS OF SEED GRAIN NOW STARTED

Shipments of seed grain to new government cleaning plant at Edmonton have commenced. The first farmer to take advantage of the new government seed grain marketing plan is R. D. Lynch of Claysmore, who has sent to the department of agriculture that he is shipping a consign ment of Kitchener seed wheat to the new plant. Other farmers have intimated that they intend taking advantage of the marketing plan.

The cleaning plant and other machinery in the new government plant will all be installed within the next 30 days. Farmers are now beginning to order seed for next spring. The government plant is at 9627-105a Avenue, Edmonton; to where consignments of seed grain should be made.

No man lives a useless life. He may serve as an example for others to avoid.

You need new fall and winter underwear. Don't try to "patch out" your old supply.

The wrong change in the weight of your underwear or hose will give you a bad cold. It will cost you more to cure the cold than to buy new underwear—especially if you buy it from us, where you always get big value for the dollar you spend.

## British Fleet Will Oppose Move of Turks On Constantinople

London.—If Mustafa Kemal Pasha should attempt to move his victorious forces against Constantinople he will be opposed by the British fleet.

The British Cabinet announced that instructions had been issued to the British armada to allow no Turkish troops to make the crossing from Asia Minor to the European shore.

Complete agreement was reached at the cabinet meeting with the French for the protection of the neutral zones on both sides of Straits of the Dardanelles and also of Constantinople. A note is to be sent to Mustafa Kemal Pasha by Italy, France and Great Britain asserting that, pending a permanent arrangement of the situation, the neutral zones must be respected. Preparations are being made by the British to send reinforcements into the neutral zones. Jugoslavia and Rumania both are reported to be viewing with the greatest concern the possibility of the Turks returning to Thrace.

The destruction of the great port of Smyrna by fire, accompanied by reports of horrible massacres perpetrated by the Turkish Nationalists, the victims numbering between one and two thousand persons, has still further complicated the already grave situation in Asia Minor. Up to the present the reports of these massacres appear to be depending largely on the exaggerated statements of terrified refugees, but it seems impossible to doubt, from information reaching London, that a number of lives have been sacrificed, women outraged and other atrocities committed. The destruction of the great port of Smyrna left some 60,000 Greeks and Armenians homeless and destitute.

If the British Government has received official reports of the happenings in Smyrna from its representatives there, or from commanders of the naval units in Turkish waters, none of them has as yet been secured for publication and the only news reaching here is contained in press reports.

According to one report, the Turks deliberately burned the city to hide the evidence of their massacres and pillaging, but what appears more probable from other reports is that the Turks' motive was to force the Allies to evacuate the entire Christian population and thereby settle the problem of minorities in Anatolia.

Give your local merchants a chance. Buy at home.

## ALLEGED KIPLING INTERVIEW CAUSES HEATED CONTROVERSY IN NEW YORK

New York.—Denial by Sir Rudyard Kipling that he had expressed himself toward the United States as reported in an interview in the New York World by Clare Sheridan, has not served to double the fury with which that paper is attacking Kipling. Kipling was quoted as saying that the United States entered the war late and forced a premature peace. He was also quoted as saying, with reference to the United States, "They have got the gold of the world, but we have saved our souls."

New York papers devote columns to the controversy. The World refuses to accept the flat denial made by Mr. Kipling. After stating that there is no doubt that he saw Clare Sheridan, it says: "Those who are familiar with his attitude can have no doubt that the opinions as published were actually those of Sir Rudyard."

The New York American, "Heart paper," makes an entirely capital out of the matter and in an extended editorial today remarks, among other things that "the plain facts are that

the average Englishman and Frenchman, too, for that matter, know we saved their countries in the late war, but deeply resent the fact that they had to depend upon us for their salvation, and therefore hate us, not merely because we saved them but because they had to be saved."

The Tribune attacks the World for what it terms "such a reckless and sensational aspersions of the truth as it is now printing."

The Times, in its leading editorial, after noting that Mr. Kipling has been by a visitor whose reputation was indeed established, but established as "excessively indiscreet," says, "Every person of reasonable caution who reads the words put into the mouth of Mr. Kipling by Mrs. Sheridan doubted at once if they ever could have been uttered by him. Now we know they were not."

The Wall Street Journal, in entering the controversy in support of Mr. Kipling's denial, attributes the World's sensational action to politics.

### Memorial at Port Said

Monument for Soldiers of Australia and New Zealand

Ottawa.—A memorial to the soldiers of Australian and New Zealand forces who laid down their lives in Egypt, Palestine and Syria will be erected at Port Said, the northern entry to the Suez Canal. Information to this effect has been received by the Minister of Defence, coupled with the statement that the Premier of Australia is desirous that Australian and New Zealand sculptors in Canada be informed of the fact that they are eligible to submit designs for this memorial should they desire to do so. Information is obtainable from the Minister of National Defence.

Death of Premier Bracken's Father

Saskatoon.—Ephraim M. Bracken, father of Premier Bracken, of Manitoba, is dead. Mr. Bracken was staying at the time of his death with his son, the Premier, in the Manitoba Agricultural College, Winnipeg. He went to Winnipeg in July last for a visit and had been unable to return owing to illness. He had a stroke about a year ago and has been in failing health ever since.

## Greeks Are Massacred By Turks At Smyrna While City Is In Flames

London. The conflagration in Smyrna was started by a sergeant of Turkish regulars, according to Miss Mills, head mistress of the American College in Smyrna, says a despatch to the Times from Athens.

The sergeant was seen to enter a house carrying a can of petrol. The damage so far is estimated at £25,000,000.

The correspondent says it is reported in Athens that up to the time of the outbreak of the fire, about 1,000 persons had been massacred, and that it is feared the number is now much greater.

Reports have reached London that the Turks have commenced reprisals against the Armenians at Smyrna, but no indication of this nature or extent has been received.

The British inhabitants of Smyrna, with a few exceptions, were safely evacuated about midnight.

Scores of buildings in the European section of the city are destroyed in

## CATTLE QUARANTINE RIGIDLY ENFORCED

BRITAIN TAKING PRECAUTIONS TO PREVENT SPREAD OF FOOT AND MOUTH DISEASE

Toronto.—That the cattle quarantine regulations in England are being rigidly enforced to prevent the spread of foot and mouth disease may be judged by the experience of B. H. Bull and Sons, Brampton, who were obliged to charter two special steamers in which to transport from the Channel Islands to Canada a shipment of Jersey cattle which reached Quebec on the steamship Batford.

The cattle had to be transferred in the channel after their departure on a special steamer from Jersey to the Batford, the latter steamer being obliged to continue the journey without touching a port on the other side of the Atlantic. It was also stipulated that the cattle should be transferred to one ship from another in specially constructed crates. This done, the crates had to be destroyed.

## Might Declare a Moratorium

Saskatchewan Premier Issues Warning to Conference of Creditors

Regina.—A warning that the Government may have to take the question of extending its power to declare a moratorium in Saskatchewan was uttered by Premier Charles Dunning. The Government's decision, he said, would be guided by two factors: the continuance or otherwise of the policy of settling up expenses against debtors by the use of court procedure for the enforcement of collections, and the price of wheat.

The conference did not crystallize its sentiments with respect to moratorium legislation by the passage of any resolution.

With the exception of the banks, practically all the large creditor groups were represented, including the loan companies, implement companies, lumber companies, retail merchants, wholesalers, the rural municipalities, in addition to the Saskatchewan Stockgrowers' Association, the Saskatchewan Coalfield Development Company, and the Board of Trade. Many of the members of the legislature were also present, as well as members of the Government.

## Trip Was Successful

Explorer Plans to Return to Arctic Next July

Winnipeg, Maine.—Donald B. MacMillan, explorer, plans to return to the Arctic in July next year, sailing from this port in the Bowdoin. He said that his recent trip had been successful, and that another would be undertaken.

## New Prize For Aircraft

Plane Flying English Channel on Least Four Wires 15,000 Francs

Paris.—M. Bleriot, famous French aviator, has offered a prize of 15,000 francs for an aeroplane capable of making a flight in which the object will be to make a light and return across the English Channel with the use of the smallest quantity of gasoline. Light machines with small motors are specified and in no case must they use more than three quarts of fuel.

## Rescues Three Boys From Whirlpool

Fourteen-Year-Old Girl Gave Life to Save Companions

Bierut, Syria.—A remarkable story of self-sacrifice in which a fourteen-year-old girl gave her life to save three companions, has been received here.

## Sustained Right To Transfer Insurance

Beneficiary Can Be Changed If So Stipulated on Policy

Montreal.—The right of an insured person to transfer the benefit of a life insurance policy to some other person other than that originally designated, provided that stipulation has been made on the face of the policy reserving that right, was sustained in a judgment handed down at Three Rivers by Judge Dupuis. The Metropolitan Insurance Company was the defendant in the action which was for \$2,000. The company had paid that sum to Mrs. Moise Charbonneau, who had been named beneficiary of her deceased husband after the original benefit was assigned to J. E. Munier, son-in-law. After the company paid the \$2,000, Munier claimed a like amount in addition.

## Dutch Farmers May Come to Canada

Government Scheme to Assist Experienced Men To Emigrate

Ottawa.—An influx of experienced agriculturists from Holland is likely, according to Baron J. C. C. Sandberg, who left Ottawa for Toronto after interviewing Hon. Charles Stewart, Minister of the Interior, and other members of the Government. Baron Sandberg was in Ottawa representing the Government of Holland, which purports a scheme of assisted emigration of farmers and agricultural laborers and their families.

## Modern Transportation

Propose to Establish Motor Truck Traffic Out of Swift Current

Swift Current.—If Swift Current cannot have some of the national railway facilities so urgently needed, perhaps the situation can be overcome in a large measure by adopting other modern means of transportation. There is a project under way at the present time whereby there may shortly be motor traffic routes put into operation between this city and the Weyburn-Leithbridge line.

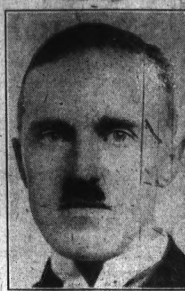

## To Improve Vancouver Harbor

Ottawa.—The Government has advanced \$254,000 on a loan to the Vancouver Harbor Commissioners on account of expenditure on harbor improvements during July. The total advance authorized is five million dollars. The \$235,000 has been advanced to date.

## Transport Diverted

Malta.—The British military transport Soma, bound for India, has been diverted to Malta to take a British battalion to Constantinople.

## WESTERN EDITORS

Chas. L. Dunford, Editor and Proprietor of The News, Oyen, Alberta.

## Would Regulate Export Of Canadian Cattle

Agricultural Council Anxious to Keep Quality Up to Standard

Winnipeg.—Restrictions as to the quality of cattle exported to Great Britain when the embargo is removed, and regulation to approximate the demand at the several seasons of the year, are being sought by the Canadian Council of Agriculture.

The council is appealing to the Dominion Government, through the ministers of agriculture and trade and commerce, in order that the British market may not be flooded with Canadian cattle at inopportune times, and that the quality may be kept up to the standard required by the British buyers.

## Two Men Killed In Dust Explosion

Plant of American Hominay Co., Indiana, Was Destroyed

Terre Haute, Ind.—Two men are known to be dead, and damage estimated at \$2,000,000 done as the result of a dust explosion which destroyed the plant of the American Hominay Co. here. Fred Stevens and a man whose identity was not learned, are known to be dead, and it is feared other persons may have been trapped.

## Two Men Killed In Dust Explosion

Sixty persons were working in the plant when an explosion, followed by the fire, occurred.

## America's Part in War

New York.—Sir Auckland Geddes, British Ambassador to the United States, speaking at a dinner given to visiting delegates to the National Police Conference, said that America played a great role in ending the world war and that anyone who said otherwise was one of three things, "ignorant, malicious or just a fool."

## MAY WIPE OUT CERTAIN DUTIES

FEDERAL GOVERNMENT OF AUSTRALIA IS CONSIDERING PLAN

London.—With a view to relieving the primary producers in Australia, a Reuter despatch from Melbourne says, it is reported that the Australian Federal Parliament is favorably considering Government proposals to practically wipe out the duties against Great Britain and considerably modify the duties against other countries in regard to fencing wire, galvanised iron wire netting and traction engines. At the same time, bounties are being fixed which are almost equivalent to the present duties in order to safeguard local industries.

It is estimated that the duty remissions will total £250,000 and the bounty liability £250,000.

All parties in the Parliament support the proposal in view of the approaching general elections in an endeavor to secure the farmers' vote.

## Want Eastern Investors

B.C. Anxious to Prevent Stagnation of Commerce

Revelstoke, B.C.—British Columbia's first welcome to the delegation from the British House of Commons and Montreal Board of Trade which is touring Canada, was presented by Horace Manning, of the Revelstoke Board of Trade here.

The delegation, consisting of 127 men, was entertained by officials of the city and district. One of the points urged by Mr. Manning in his address to the visitors was the desire of citizens of British Columbia that investors of Eastern Canada should do their part to prevent those of the United States getting an ascendancy in influencing over commercial affairs in the province.

## Two Men Killed In Dust Explosion

Plant of American Hominay Co., Indiana, Was Destroyed

Terre Haute, Ind.—Two men are known to be dead, and damage estimated at \$2,000,000 done as the result of a dust explosion which destroyed the plant of the American Hominay Co. here. Fred Stevens and a man whose identity was not learned, are known to be dead, and it is feared other persons may have been trapped.

## Question Of Moratorium Is Subject Of Discussion By Manitoba Legislators

Winnipeg.—An intimation which almost amounted to a warning, was given by Hon. Neil Cameron, Provincial Minister of Agriculture, to loan companies, implement houses and banks, to deal gently with farmer debtors.

Discussing the possibility of a moratorium being adopted for the province this year, he stated, that while no decision to enact such legislation had been arrived at, the financial interests would have to give the utmost consideration to farmers in view of the protracted period of financial difficulties.

The minister declared the matter of a moratorium would be taken up in the Cabinet at the first opportunity.

From other sources it was learned that a meeting between representatives of the loan companies and members of the Cabinet had been held and that while moratorium issues had been raised, other ways of assisting farmers over the difficult period were favored by the Government. Consideration of the moratorium issue will be given by the Board of Directors of the United Farmers of Manitoba at their meeting early in October, W. R. Wood, Secretary of the Association, declared.

That the reference made by Premier Dunning, of Saskatchewan, during a conference on financial matters at Regina to a moratorium in that province, was ill-advised, was the opinion expressed here by Sir John Aldred, Vice-President and General Manager of the Canadian Bank of Commerce.

Referring to the statement of Premier Dunning that the province was "nearer to a point at which a general moratorium may have to be declared than it ever has been before," Sir John declared that no necessity for such extreme measures exists in the west. He pointed out that the bankers were not responsible for the price of grain, nor could they influence it. "We would like," Sir John said "to see the farmer get a minimum price of a dollar a bushel. That would mean a selling price of around \$1.25. However, the cost of the crop has not been so great as for previous years. Labor has cost less, machinery is a little lower, while today costs less and general living expenses have been reduced. There will be a lot of money in the country, and there is not going to be any such effort to extract the last dollar from the farmer."

"There have been charges made," Sir John continued, "that the banks have little of humanity in their dealings with debtors. That is not true."

He pointed out that it was as much to the interest of the banks that business generally should be assisted, rather than retarded, as any other class, and he had not the slightest doubt that creditors of farmers would be entirely reasonable in their dealings and requests. A moratorium could scarcely fail to do more harm than good. It would retard credit and would hold back the flow of money from the other side.

## Saskatchewan Closing of Ford Plant

High Price of Coal Given as Reason

Detroit.—Henry Ford has taken steps to close his Detroit automobile plants, thereby throwing upwards of 100,000 workers in the Detroit district out of employment for an indefinite period.

## Sells Debentures

Dominion Securities Corporation of Toronto Were Buyers For Syndicate

Regina, Sask.—At a net cost of 5.19 per cent, to the province, the Dominion Securities Corporation, of Toronto, representing a syndicate comprising themselves and Dillon, Read and Company, of New York, purchased \$2,835,000 Saskatchewan twenty-year five per cent. debentures, their price being \$7,652.

## Valuable Cargo From Orient

Victoria, B.C.—With a large passenger list and a rich cargo of raw silk and Oriental merchandise, the new liner, Empress of Australia, reached here Sept. 13. Major J. J. Brown, Indian army officer, was a passenger. He was en route to Montreal in connection with the Canadian colonization scheme.

## Quebec Has Large Crop

Quebec.—In an official statement, G. E. Marquis, Chief Statistician of the Province of Quebec, estimates that Quebec's 1922 crop will reach a value of \$225,000,000, as compared with \$219,000,000 last year.

## Australia Maintains Universal Service

London.—Replying to a deputation representing Labor, Socialist and other organizations, the Australian Minister of Defense, said there was no hope of abolishing the compulsory provisions of the Defense Act, says a Reuter despatch from Melbourne.

## King Victor Emmanuel Reported Ill

Naples.—King Victor Emmanuel of Italy is seriously ill here, according to the Matinee. The newspaper states that King Victor contracted his illness on a journey in the Trentino Mountains.

## Western Improves Photography

Batford.—Mr. Noel, telegraph operator at Willow Bay, and brother of J. D. Noel, of Batford, has recently perfected an improvement in photography for which he has been offered the sum of \$85,000.

## Hit By Trolley Standard

Saskatoon.—While looking back out of the door of the fast moving street car he was driving, Albert Clemens was struck on the head by a trolley standard. Following a skull operation his recovery is expected.

## No Immediate Action Will Be Taken By Disarmament Committee

Geneva.—A race, between France and Great Britain to prove which of their methods to obtain a reduction in armaments will yield the most results is in prospect in consequence of a decision of the disarmament committee of the assembly. The committee incorporated the suggestions of both M. de Jouvenel, of France, and Lord Robert Cecil, of England, into a resolution which will be transmitted to the assembly.

## The Great Lakes Treaty between the United States and Canada was again cited before the committee by

A. T. Fisher, representing Great Britain, as an example of what a regional agreement ought to be. This document of a hundred years ago, he said, might well be taken as a model, as well as proof of what such an understanding may accomplish. Mr.

## Fisher's arguments and those of other supporters of regional agreements prevailed.

The resolution to be submitted to the assembly charged the temporary mixed committee on disarmament with the task of making a further study of the question, and requested it to prepare the text of a treaty for a regional agreement as well as of agreements to be submitted to the various governments, which will be asked to give their views on them so that the next assembly may act.

The decision of the committee means that there will be no possible action by this assembly on the plan for the reduction of armaments, but that the work of investigation already begun will continue.
